

LIFELINE HELMET SUPPORT SYSTEMS PN-410 and PN-415

- Use 6 Adjustable straps to tighten/adjust to face snug with 4 points of attachment (D-rings) to helmet.
- Adjustments should be snug—not tight.
- Mount D-ring hardware 1" from base of helmet (see photo).
- D-ring, Bolt, Washer and Nut included. Nut should be attached facing outside of helmet.
- 3" Chest Strap to be worn across upper chest under armpits.
- Fasten Velcro and tighten Chest Strap with D-ring closure.

WARNING/DISCLAIMER

By acceptance and/or use of this product, the user acknowledges that:

- Racing and powerboating are inherently dangerous.
- Personal safety products are only part of a complete safety system that include the racecraft, the racecourse, and prevailing conditions at time of use.
- Personal safety products are not designed to provide the same level of performance or protection throughout the particular product. Different parts or areas of the product may provide less protection, even though they may appear the same.
- There is a serious risk of injury or death, even if this product is used correctly.

No representation or warranty, express or implied, is made as to this product's ability to protect the user from injury or death. The user assumes that risk, and the responsibility to become familiar with all available information concerning the correct use and limitations of these products. If you are uncertain of the correct use or limitations of this product, DO NOT USE IT. **For more information call LIFELINE 928-669-9241.**
